The Premier Course in Dermatopathology

Jointly Sponsored By:

CU Dermatopathology Consultants
and

Target Audience

The Combined Skin Pathology Course is designed for pathologists, dermatologists, dermatopathologists, residents, and fellows who have an interest in cutaneous pathology.

Overview and Objectives

Participants will receive a comprehensive and intensive experience in dermatopathology and upon completion of the course, they should be able to:

- Improve their ability to interpret microscopic sections of skin lesions
- Identify areas of weakness & enhance their diagnostic skills in these areas
- Determine clinicopathologic correlation
- Enhance their knowledge and skills in preparing for the Boards

The course includes lectures, 150 microscopes, more than 600 teaching-quality glass slides complete with clinical photographs, optional evening dinner lectures, and an opportunity to review slides at a multi-headed microscope with a faculty member. New to the course will be a CD-ROM (1000 page question and discussion with clinical photographs and photomicrographs) which may be purchased separately at the meeting. The course will have separate lecture hall, microscope laboratory, and five-head microscope consultation room.

Accreditation
