26th Annual Seminar in Pathology

Thursday, April 25 – Sunday, April 28, 2019

Sheraton Station Square Hotel

300 W Station Square Drive

Pittsburgh, PA 15219

Sponsored By

The Department of Pathology and Laboratory Medicine

Allegheny General Hospital

Allegheny Health Network

Pittsburgh, Pennsylvania

Conference Overview

This four-day extensive review of multiple systems in anatomic pathology will allow anatomic pathologists to become proficient in different fields of pathology. The didactic presentations from leading national experts in the field of pathology will provide in-depth discussions of problems in diagnoses that practicing pathologists face in their hospitals and day-to-day activities, while the seminar will help residents and fellows with their specialty boards.

Intended Audience and Conference Objectives

This seminar is intended primarily for practicing pathologists, fellows, residents, and other health care professionals.

At the conclusion of this seminar, participants should be able to:

- Demonstrate improvement in diagnostic skill in problematic areas of anatomical pathology.
- Identify, classify, and differentiate benign, premalignant, and malignant lesions in different organs.
- Apply immunohistochemistry and molecular testing in the evaluation of neoplastic diseases.
- Communicate results effectively with the clinicians and better appreciate the importance of clinicopathologic correlation.
