

Welcome to Pathology Update 2018 taking place on September 14-15, 2018 at Cleveland Clinic Abu Dhabi. The focus of this symposium is challenges in the practice of Anatomic Pathology. Our expert faculty have developed international guidelines and standards of practice and will help you enhance your diagnostic skills by a series of interactive lectures and digital microscopy sessions. They will share pearls and pitfalls in diagnostic interpretation. The discussion will include pertinent immunohistochemical and molecular genetic techniques.

Program Topics

- Breast Pathology
- Gynecologic Pathology
- Gastrointestinal Pathology
- Genitourinary Pathology

Target Audience

- Pathologists
- Breast and general surgeons
- Radiologists involved in breast cancer screening
- Oncologists
- Gastroenterologists
- Urologists
- Gynecologists
- Physician Assistant
- Residents / Fellows / Students

Meet Our Faculty

Cleveland Clinic Faculty

John R. Goldblum, MD
Chairman, Pathology Department
Cleveland Clinic

Charles V. Biscotti, MD
Director, GYN Pathology Subspecialty
Cleveland Clinic

Christopher G. Przybycin, MD
Associate Staff Pathologist
PLMI GU Division
Cleveland Clinic

Erinn Downs Kelly, MD
Cleveland Clinic

Cleveland Clinic Abu Dhabi Faculty

Ahmad Alduaij, MD
Staff Physician
Anatomical and Clinical Pathology
Pathology & Laboratory Medicine Institute
Cleveland Clinic Abu Dhabi

Ayoub Nahal, MD
Staff Physician, Anatomical Pathology
Pathology & Laboratory Medicine Institute
Cleveland Clinic Abu Dhabi

Haytham Dimashkieh, MD
Staff Physician, Anatomical Pathology
Pathology & Laboratory Medicine Institute
Cleveland Clinic Abu Dhabi

Martine McManus, MD
Staff Physician, Anatomical Pathology
Pathology & Laboratory Medicine Institute
Cleveland Clinic Abu Dhabi

Muneezeh Liaqat, MBBS
Chair, Anatomical Pathology
Pathology & Laboratory Medicine Institute
Cleveland Clinic Abu Dhabi

Priti Joshi, MD
Staff Physician, Anatomical Pathology
Pathology & Laboratory Medicine Institute
Cleveland Clinic Abu Dhabi

Learning Objectives:

- Identify and resolve diagnostic dilemmas in Anatomic Pathology
- Effectively utilize ancillary tests including immuno-histochemical and molecular analyses
- Generate clinically useful reports that correlate clinical, radiologic and pathologic features
- Evaluate the impact of different diagnoses on patient management
