2nd PATHOLOGY MEETING

ADVANCES IN MOLECULAR AND DIAGNOSTIC PATHOLOGY

Goals of the meeting:

The meeting will focus on advances in diagnostic pathology with emphasis on translational discoveries and molecular approaches that have impacted the clinical care of patients with cancer. The program will be both practical and informative, geared towards practicing physicians and translational scientists. Lectures will emphasize state-of-the-art laboratory techniques that help inform targeted therapies, including next-generation sequencing, immunohistochemistry, and fluorescence in situ hybridization.

Topics of the meeting:

- Central Nervous System Tumors
- Sarcoma: soft tissue and bone
- Gastrointestinal Tumors
- Breast and Gynecologic Tumors
- Skin Tumors
- Hematolymphoid Tumors
- Head and Neck Tumors
- Lung Tumors
