COURSE OVERVIEW

This course is designed to give a current review of thoracic pathology with clinical and radiologic correlations. The course will run for two and one half days and will consist of a series of presentations with some multidisciplinary sessions regarding lung cancer, interstitial lung disease and non-neoplastic lung disease. Updates on The WHO Classification of Lung Tumors, the 8th Edition TNM Staging Classification, and ATS/ERS Classification of infiltrative interstitial Pneumonias will be presented. Most of the speakers will be expert lung pathologists, but there will also be clinical and radiologic presentations by well-known thoracic clinicians and radiologists. The presentations will illustrate the importance of a multidisciplinary approach to solving difficult problems in thoracic disease. Self Assessment Module Credits (SAMs) will be available.

The course will be held on the campus of Memorial Sloan Kettering Cancer Center on the Upper East Side of Manhattan, a vibrant and safe neighborhood within easy access of the widely varied cultural attractions of New York City.

OBJECTIVES

By the end of this course the participant should:

- Have a grasp of current concepts in lung, pleural and mediastinal pathology
- Understand the importance of correlation between clinical, radiologic and pathologic data in diagnosis and management of interstitial lung disease and pulmonary vasculitis
- Know the significance of lung biopsy and multidisciplinary correlation for the diagnosis of non-neoplastic lung disease in acute lung injury and in cancer patients
- Comprehend the most recent histologic concepts in lung cancer diagnosis and classification including the impact of radiologic correlation on pathology diagnosis
- Realize the important issues in molecular targeted therapy for lung adenocarcinoma
- Have a practical understanding of differential diagnosis for mediastinal and pleural lesions
- Understand the usefulness of cytology in pulmonary, pleural and mediastinal diagnoses

TARGET AUDIENCE

This course will be available for pathologists, pulmonologists, thoracic surgeons, and radiologists, including physicians in training.

COURSE

The course will run for two and one half days and will consist of a series of presentations with some multidisciplinary sessions regarding lung adenocarcinoma, interstitial lung disease and non-neoplastic lung disease in cancer patients.

EVALUATION

A course evaluation survey will be electronically provided and incentivized with the opportunity to review the sessions and the speakers and to provide comments for the planning and programming of future courses.

OUTCOMES MEASUREMENT SURVEY

Six months after the end of the course an Outcomes Measurement Survey will be sent out electronically to all participants to help us determine what positive impacts have been made on participant knowledge and awareness.

THORACIC PATHOLOGY NEW YORK CITY 2017 | September 15-17, 2017

Friday, September 15, 2017

NEOPLASTIC DISEASE - PART 1
REGISTRATION AND CONTINENTAL BREAKFAST
7:00-7:45 am
7:45-8:00 am Welcome and Announcements
William D. Travis, MD
LUNG TUMORS – PART 1
11:00-11:30 am Diagnosis of Lung Cancer in Small Biopsies and Cytology
Darren J. Buonicore, MD
LUNCH ON YOUR OWN
Noon-1:30 pm
9:45-10:15 am Radiologic Pathologic Correlations in Thoracic Neoplasia
Michelle S. Ginsberg, MD
2:00-2:30 pm Variants of Lung Adenocarcinoma
Lida Hariri, MD, PhD
FACULTY DISCUSSION
3:00-3:15 pm BREAK
3:15-3:30 pm Neuroendocrine Tumors of the Lung
Natsuhiko Rekhtman, MD, PhD
4:00-4:30 pm Unusual Carcinomas of the Lung: Pleomorphic carcinoma, carcinoidoma, pulmonary blastoma.
Lida Hariri, MD, PhD
5:00-5:30 pm Pitfalls in Frozen Section Diagnosis of Lung Cancer
Alain C. Borczuk, MD

Saturday, September 16, 2017

NON-NEOPLASTIC DISEASE
INTERSTITIAL LUNG DISEASE I
CONTINENTAL BREAKFAST
10:00-10:30 am Pathology
William D. Travis, MD
8:30-9:00 am Radiology
James Gruden, MD
9:00-9:30 am Clinical
Fernando J. Martínez, MD
9:30-9:45 am FACULTY DISCUSSION
9:45-10:00 am BREAK
INTERSTITIAL LUNG DISEASE II
Pathology
William D. Travis, MD
10:30-11:00 am Radiology
Alan L. Lagonotis, MD
11:00-11:15 am Clinical
Robert J. Kaner, MD
11:30 am–noon Multidisciplinary Interstitial Lung Disease Case Presentations
Robert J. Kaner, MD, Natasha Rekhtman, MD, James Gruden, MD, Mari Mino-Kenudson, MD, Alan L. Lagonotis, MD, Navneet Narula, MD
LUNCH ON YOUR OWN
Noon-1:30 pm

Sunday, September 17, 2017

OTHER NEOPLASTIC AND NONNEOPLASTIC THORACIC DISEASES
7:00-8:00 am CONTINENTAL BREAKFAST
8:00-8:30 am Therapeutic Malignancies with Novel Genetic Features
Cristina Antonescu, MD
9:00-9:30 am Mediastinal Tumors
William D. Travis, MD
9:30-10:00 am Tumor-Like Lesions of the Lung
André Moreira, MD
10:00-10:15 am Discussion Period
BREAK
10:30-11:00 am Pathology of Pneumoconioses
Richard L. Kradin, MD
11:00-11:15 am Pathology of Pulmonary Hypertension
Navneet Narula, MD
11:30 am–12:30 pm Pulmonary Infections
Richard Kozlin, MD
12:30 pm Closing Remarks and Adjournment
William D. Travis, MD
