

**UNIVERSITY OF WISCONSIN
HOSPITAL AND CLINICS
*Cytopathology Fellowship***

Description: This one year ACGME-accredited program is designed to provide comprehensive training in diagnostic cytopathology, particularly the immediate evaluation, triage and final diagnosis of Fine Needle Aspirations (FNAs). The cytology laboratory evaluates approximately 25,000 gynecologic and 6,000 non-gynecologic specimens, of which 2,500 are FNAs, per year. Fellows will become proficient in laboratory management, quality systems, LEAN analysis, diagnostics; including the performance and interpretation of FNAs and new technologies; including the ThinPrep Pap Test, HPV-DNA testing, and medical informatics. The cytopathology section utilizes video streaming from remote locations for immediate evaluation of FNA's. This cutting edge experience provides fellows with comprehensive training in the new technologies benefiting cytopathology today. Fellows also receive training in ultrasound-guided FNAs of the thyroid, providing them with a procedural skill useful in any future practice. The department has a strong academic mission, and provides opportunities for cytology-based research, including molecular diagnostics. Fellows will participate in the education of residents and medical students on cytology rotations. Educational opportunities exist for rotation at the Wisconsin State Laboratory of Hygiene (including evaluating its large volume of gynecologic specimens, spending time in the cytogenetics laboratory, and teaching in the School of Cytotechnology). Fellows are expected to complete a research project for publication. Upon completion, the fellow will be prepared to direct a university or community-based practice cytopathology laboratory.

Requirements: Applicants must be AP or AP/CP Board eligible or Board certified.

Types and Numbers of Appointments: The fellowship accepts two fellows per year.

Stipends: Commensurate with the year of postgraduate training (e.g. \$63,947 for PGY5; \$66,114 for PGY6, based on 2014-15 stipends).

Staff: **Suzanne Selvaggi, MD**, (Albert Einstein Medical College, 1978) Professor, Cytopathology; **Jimmie Stewart, III, MD**, (University of Arkansas for Medical Sciences 1992) Associate Professor, Cytopathology; **Darya Buehler, MD**, (Jaroslavl State Medical Academy, Russia 2001) Assistant Professor, Cytopathology and Surgical Pathology (Bone & Soft Tissue, Endocrine, Thoracic); **Josephine M. Harter, MD**, (University of Michigan, 1994) Assistant Professor, Cytopathology and Surgical Pathology (Breast and Gynecologic Pathology); **Aparna Mahajan, MD**, Grant Medical College and Sir JJ Group of Hospitals, India, 2000) Assistant Professor, Cytopathology and Surgical Pathology (Breast and Gynecologic Pathology)

Applications: Send cover letter with application (download from website) personal statement, CV and three letters of recommendation to: Suzanne Selvaggi, Director, Cytopathology Fellowship, University of Wisconsin Hospital & Clinics, Pathology & Laboratory Medicine, Cytology/Clinical Labs D4/259 CSC, 600 Highland Avenue, Madison, WI 53792-2472 **Phone:** (608) 265-9160 • **Fax:** (608) 263-6453 • **E-mail:** SSelvaggi@uwhealth.org **Web site:** <http://www.pathology.wisc.edu/education/fellowships/cytopathology> **Alternate Web site:** <http://www.uwhealth.org/health-professionals/gme/graduate-medical-education-residents-and-fellows/26188>
