

Tutorial on Pathology of the GI Tract, Pancreas and Liver

Westin New Orleans Canal Place
New Orleans, Louisiana

Course Goals & Objectives

This course is designed to update physicians on advances in our understanding of gastrointestinal diseases, address problems faced during the pathologic evaluation of tissue samples, and provide pathologists with a framework for interpretation of both histologic patterns of disease and results of molecular analyses. The course will be conducted under the direction of Rhonda K. Yantiss, MD at the Westin New Orleans Canal Place, located in New Orleans, Louisiana from **November 7-11, 2016**. The program will consist of lectures, case presentations and discussions designed to provide attendees with an in-depth discussion of diagnostic problems that arise when evaluating materials obtained from the gastrointestinal tract, pancreas, and liver, and inform them regarding the application and interpretation of immunohistochemical and molecular studies in the diagnosis and classification of these diseases. An extensive compilation of presentations, lecture notes, and reference citations will be available online.

Target Audience

Pathologists and pathologists-in-training.

General Information

The Tutorial consists of five days of lectures, case presentations and discussions. It will be held at the Westin New Orleans Canal Place, 100 Rue Iberville, New Orleans, LA 70130, United States Phone: (504) 566-7006; <http://www.westinneworleanscanalplace.com/>

Disclosure of Relationships/Content Validity

It is the policy of Weill Cornell Medicine to adhere to ACCME Criteria, Policies, and Standards for Commercial Support and content validation in order to ensure fair balance, independence, objectivity, and scientific rigor in all its sponsored activities. All speakers, Course Directors, Co-Course Directors, planners, reviewers, and staff members participating in sponsored activities are expected to disclose relevant financial relationships pertaining to their contribution to the activity. Relationship information is analyzed to determine whether conflicts of interest exist. All conflicts of interest are resolved prior to participation in the planning or implementation of this activity. Presenters and authors are also expected to disclose any discussion of (1) off-label or investigational uses of FDA approved commercial products or devices or (2) products or devices not yet approved in the United States.

Credit for attendance at the lectures is granted on an hour for hour basis and will be indicated at the bottom of the Tutorial certificate, which will be mailed to you approximately 6 weeks after conclusion of the program.
