

THE SURGICAL PATHOLOGY OF NEOPLASTIC DISEASES

May 17-21, 2010
 Memorial Sloan-Kettering Cancer Center
 New York, New York

Memorial Sloan-Kettering Cancer Center
 Department of Pathology
 1275 York Ave, New York, NY 10065

May 17-21, 2010 • New York, New York
 The Surgical Pathology of Neoplastic Diseases

EDUCATIONAL OBJECTIVES

Participants will learn the current classifications and diagnostic criteria for tumors and tumor-like lesions of the selected subspecialty areas, including both common and unusual entities. The appropriate use of ancillary diagnostic techniques will be highlighted. Complete differential diagnoses will be discussed, and a practical, problem-oriented approach to the pathologic evaluation of specimens will be emphasized. Participants will learn about the clinical features of the various tumor entities along with pathologic prognostic factors and predictors of therapeutic responsiveness.

GOALS OF THE COURSE

The purpose of this course is to review in depth selected topics in the pathology of neoplastic diseases, with an emphasis on clinical features, diagnostic criteria including the use of novel diagnostic modalities when applicable, prognostic factors, and assessment of therapy-related factors.

COURSE DESIGN

This course consists of didactic lectures with question and discussion periods as well as case presentations and interactive slide seminars. The lectures are organized along the lines of the specific subspecialties to be covered this year, with 1.3 days devoted to each of three areas (Breast, gynecologic and genitaurinary pathology), and a special topics session on non-neoplastic mimics of neoplastic diseases.

REGISTRATION NOTES

A reduced rate of \$750 (\$650 before 4/1/10) is offered to pathologists-in-training; the registration must be accompanied by a letter from the residency or fellowship program director certifying the applicant's status. Optional slide seminars are offered for an additional fee of \$50 each.

Registration fees include attendance at the course, handout materials, and meals. Written notice of cancellation must be received no later than April 15, 2010. Refunds are subject to a \$65 administrative charge and will be processed after the conference. For more information, please contact the CME office at 646-227-2025, Fax: 212-557-0773, Address: 633 Third Avenue, 12th FL, New York, NY 10017 or via e-mail brodheap@mskcc.org.

HOTEL INFORMATION

We are pleased to provide the following information on hotels in the vicinity of Memorial Sloan-Kettering Cancer Center:

Marriott Courtyard Midtown East
 866 Third Avenue (between 52nd and 53rd Street)
 (212)-644-1300 (within US)
 (800)-637-8483 (reservations)
www.marriot.com

Additional hotel options can also be found at the following link:
<http://www.mskcc.org/accommodations>

Information regarding group hotel rates and optional cultural activities will be distributed to course registrants.

SURGICAL PATHOLOGY OF NEOPLASTIC DISEASES

SUMMARY:

This four and one half day course will provide an up-to-date review of the pathology of selected subspecialty areas of neoplastic disease, including breast, gynecologic and genitourinary tumor pathology, and a special topics session will cover non-neoplastic mimics of neoplastic diseases. In addition, focused lectures will address problem areas of tumor diagnosis, including frozen section interpretation. Case presentations will also be integrated into the sessions. Finally, there will be optional more intimate, interactive slide seminar sessions on selected topics in breast, GYN and GU pathology (registration is limited, additional fees apply). The Department of Pathology at Memorial Sloan-Kettering Cancer Center has a long history of course production, and this will be the 28th edition of the Surgical Pathology of Neoplastic Diseases. The course faculty will include the attending pathology staff from Memorial Sloan-Kettering Cancer Center along with selected visiting lecturers. Course participants will receive a complete syllabus with references, along with digitized glass slides of the unknown cases for review prior to the course. The course will be held on the campus of Memorial Sloan-Kettering Cancer Center on the Upper East Side of Manhattan, a vibrant and safe neighborhood within easy access of the widely varied cultural attractions of New York City. A full breakfast and lunch will be provided daily.

AUDIENCE:

This course is directed toward practicing pathologists, both in academic and private practice situations, as well as residents and fellows in pathology, who wish to broaden their understanding of neoplastic diseases.

CME Credit

Memorial Sloan-Kettering Cancer Center designates this educational activity for a maximum of 27.75 *AMA PRA Category 1 Credits*™ plus an additional 1.5 credits for each of the three optional slide seminars. Self assessment module (SAM) questions will be prepared to enable participants to earn up to 20 SAM credits. Physicians should only claim credit commensurate with the extent of their participation in the activity.

LOCATION:

Memorial Sloan-Kettering Cancer Center
Rockefeller Research Laboratories Auditorium
430 East 67th Street
Between First and York Avenues
New York, NY 10065

Phone:

COURSE SCHEDULE

All sessions will be held in the Auditorium of the Rockefeller Research Laboratories, located at 430 East 67th Street between York and First Avenues on the Upper East Side of Manhattan.

Monday, May 17, 2010

7:50-8:00	Welcome and Introduction <i>David S. Klimstra, MD</i>
Breast Tumor Pathology	
8:00-8:45	Ductal epithelial proliferations: classic morphology and new concepts <i>Jorge S Reis-Filho, MD PhD FRCPath</i>
8:45-9:15	The conundrum of apocrine lesions <i>Dilip D. Giri, MD</i>
9:15-9:45	Mucinous lesions: a practical approach <i>Adriana Corben, MD</i>
9:45-10:15	BREAK
10:15-10:45	"Small cell" tumors of the breast <i>Lee K. Tan, MD</i>
10:45-11:30	The challenges of papillary lesions <i>Edi Brogi, MD PhD</i>
11:30-12:00	Challenges in the diagnosis of (micro)invasive carcinoma <i>Adriana D. Corben, MD</i>
12:00-1:15	LUNCH
1:15-1:45	Case presentation I <i>Hannah Wen, MD PhD</i>
1:45-2:15	Case presentation II <i>Marcia Edelweiss, MD</i>
2:15-3:00	Fibroepithelial lesions: recurrent problems and possible solutions <i>Dilip D. Giri, MD</i>
3:00-3:30	BREAK
3:30-4:15	Sentinel lymph nodes: the pathologist's perspective <i>Edi Brogi, MD PhD</i>
4:30-6:00	Optional slide seminar: Breast tumor pathology <i>Lee K. Tan, MD</i>

Tuesday, May 18, 2010

8:00-8:30	Uncommon carcinomas and their mimickers <i>Cristina Vallejo, MD</i>
8:30-9:00	Novel molecular tests: an update <i>Violetta V. Barbashina, MD</i>
9:00-9:30	Novel molecular tests: clinical significance <i>Clifford Hudis, MD</i>
9:30-10:15	Lobular carcinoma: an evolving disease <i>Lee K. Tan, MD</i>
10:15-10:45	BREAK
10:45-11:30	Basal-like carcinoma: a new entity or a misnomer? <i>Jorge S Reis-Filho, MD PhD FRCPath</i>

11:30-12:00	Current issues in ER, PR and HER2 testing <i>Violetta V. Barbashina, MD</i>
12:00-1:15	LUNCH
Gynecologic Tumor Pathology	
1:15-1:35	Vulvar and vaginal melanoma <i>Klaus J. Busam, MD</i>
1:35-2:00	Vulvar dermatoses <i>Melissa Pulitzer, MD</i>
2:00-2:45	Biomarkers in the diagnosis of cervical neoplasia <i>Deborah F. DeLair, MD</i>
2:45-3:15	BREAK
3:15-4:00	Endometrial biopsy and curettage-diagnostic problems <i>Carmen Tornos, MD</i>
4:00-4:45	Gynecologic diagnostic discrepancies I <i>Robert A. Soslow, MD</i>
4:45-6:15	Optimal slide seminar: Gynecological tumor pathology <i>Robert A. Soslow, MD & Karuna Garg, MD</i>

Wednesday, May 19, 2010

8:00-8:45	Gynecologic diagnostic discrepancies II <i>Robert A. Soslow, MD</i>
8:45-9:30	Familial breast and ovarian cancer-the gynecologic perspective <i>Robert A. Soslow, MD</i>
9:30-10:00	BREAK
10:00-10:45	Ovarian mucinous tumors <i>Karuna Garg, MD</i>
10:45-11:30	Low grade serous ovarian neoplasms <i>Robert A. Soslow, MD</i>
11:30-12:15	Ovarian sex cord stromal tumors <i>Carmen Tornos, MD</i>
12:15-1:30	LUNCH
1:30-2:00	Gynecologic case presentation I <i>Guangming Han, MD</i>
2:00-2:30	Gynecologic case presentation II <i>Karuna Garg, MD</i>
2:30-3:00	BREAK
Genitourinary Tumor Pathology	
3:00-3:45	Differential diagnosis of oncocytic renal tumors <i>Anuradha Gopalan, MBBS</i>
3:45-4:30	Differential diagnosis of papillary renal tumors <i>Satish K. Tickoo, MD</i>

Thursday, May 20, 2010

8:00-8:45	Morphologic spectrum of urothelial neoplasms <i>Hikmat A. Al-Ahmadie, MD</i>
8:45-9:30	Grading and staging of bladder cancer <i>Samson W. Fine, MD</i>
9:30-10:00	BREAK
10:00-10:30	Urine cytology and urine based markers in the diagnosis and surveillance of bladder cancer <i>Oscar Lin, MD PhD</i>
10:30-11:15	Sex cord stromal tumors of the testis <i>Victor E. Reuter, MD</i>
11:15-11:45	Tumors of the testicular adnexa <i>Victor E. Reuter, MD</i>
11:45-1:00	Lunch
1:00-1:45	Diagnostic challenges on needle biopsies of the prostate <i>Samson W. Fine, MD</i>
1:45-2:30	Pathologic assessment of the radical prostatectomy specimen <i>Hikmat A. Al-Ahmadie, MD</i>
2:30-3:00	Break
3:00-3:45	Correlating morphology, molecular biology and outcome in prostatic carcinoma <i>Anuradha Gopalan, MBBS</i>
4:00-5:30	Optional slide seminar: Pediatric tumors of the kidney and adrenal gland <i>Satish K. Tickoo, MD</i>

Friday, May 21, 2010

8:00-8:45	Non-neoplastic mimics of pancreatic carcinoma <i>David S. Klimstra, MD</i>
8:45-9:10	Cutaneous pseudoneoplastic lesions, Case I <i>Klaus J. Busam, MD</i>
9:10-9:35	Cutaneous pseudoneoplastic lesions, Case II <i>Melissa Pulitzer, MD</i>
9:35-10:00	BREAK
10:00-10:30	Non-neoplastic mimics of lymphoma <i>Julie Teruya-Feldstein, MD</i>
10:30-11:15	Non-neoplastic mimics of bone and soft tissue tumors <i>Meera R. Hameed, MBBS</i>
11:15-11:45	Distinction of reactive alveolar proliferations from pulmonary adenocarcinoma <i>Maureen F. Zakowski, MD</i>
11:45-11:55	Closing Comments <i>David S. Klimstra, MD</i>
11:55	Adjourn
