## UPDATE ON PEDIATRIC PATHOLOGY: ASPEN CONFERENCE ON PEDIATRIC DISEASES

July 31 - August 4, 2023  
Mountain Chalet Aspen Resort  
Aspen, Colorado

### CONFERENCE DESCRIPTION

Continuing in the tradition of pediatric pathology conferences in the Aspen area since 1970, the 2023 lecture-based course, designed for general and pediatric pathologists and will also be of interest to pediatric surgeons and pediatricians who would like to advance their knowledge in various pediatric neoplastic and non-neoplastic diseases. Handouts and PowerPoint presentations, including case discussions will be made available on The University of Chicago website. In advance, each participant will receive a microscopic slide set of 25 cases with clinical histories. The cases will be discussed in detail during the conference. A microscope will be available to review with faculty interesting cases that participants may bring to the conference. In addition, an academic poster session consisting of current topics in pediatric pathology will be presented. Abstracts can be submitted by any participant to Aliya N. Husain, MD at the University of Chicago ([aliya.husain@uchospitals.edu](mailto:aliya.husain@uchospitals.edu)).

### CONFERENCE OBJECTIVES

At the conclusion of this activity, participants will be able to:

- Plan a diagnostic approach to the examination of neoplastic and non-neoplastic childhood diseases;
- Apply molecular genetics to the study of neoplastic and non-neoplastic pediatric diseases;
- Recognize the gross and histologic appearance of various neoplastic and non-neoplastic diseases of major organ systems including the central nervous system, hematopoietic system, soft tissue, digestive tract, liver, kidney, lung, heart, Head & Neck and skin;
- Identify the appropriate use of ancillary techniques such as IHC Stains, Electron Microscopy, and Molecular Tests in the diagnosis of non-neoplastic and pediatric diseases;
- Recognize a variety of non-neoplastic pediatric diseases through the study of microscopic sections.
