

# Crossword Puzzle | September 2022

## Answer Key

1. <b>M</b>		2. <b>U</b>	Т	E	3. <b>R</b>	I	N	4. <b>E</b>		5. <b>B</b>	6. <b>A</b>	<sup>7.</sup> <b>S</b>	A	8. <b>L</b>
9. <b>I</b>	10. <b>M</b>	Т			R			Y		<sup>11.</sup> <b>P</b>	В	C		U
12. <b>K</b>	О	I	L	О	С	Y	Т	E	<sup>13.</sup> <b>S</b>			14. <b>A</b>	15. <b>F</b>	P
<sup>16.</sup> <b>U</b>	C							<sup>17.</sup> L	I	<sup>18.</sup> C	E		<sup>19.</sup> <b>H</b>	U
L		<sup>20.</sup> <b>F</b>	<sup>21.</sup> <b>I</b>	<sup>22.</sup> <b>G</b>	o			I		I		23. <b>H</b>		S
I			<sup>24.</sup> <b>G</b>	C		<sup>25.</sup> <b>P</b>	I	D		<sup>26.</sup> <b>C</b>	27. <b>A</b>	I	X	
<sup>29.</sup> <b>C</b>	I	V	A	T	<sup>30.</sup> <b>T</b>	E				31. <b>A</b>	Т	P		32. <b>C</b>
Z					<sup>33.</sup> <b>E</b>	R		34. <b>A</b>	U	Т	О	P	S	Y
	<sup>35.</sup> <b>P</b>	Y	<sup>36.</sup> <b>O</b>	G	E	N	I	C		R		О		A
37. <b>L</b>			A			I		U		I		38. <b>C</b>	I	N
I				39. <b>I</b>	40. <b>H</b>	C		41. <b>T</b>	О	X		R		О
<sup>42.</sup> <b>P</b>	43. <b>E</b>	44. <b>T</b>	E	C	н	I	A	E				45. <b>A</b>	L	S
<sup>46.</sup> <b>I</b>	I	A				O			47. <b>P</b>	48. <b>S</b>	Т	Т		I
49. <b>D</b>	E	L	50. I	51. <b>R</b>	52. <b>I</b>	U	53. <b>M</b>		<sup>54.</sup> <b>R</b>	S		E		S
55. <b>S</b>	C	L	E	R	0	S	I	S		56. <b>M</b>	A	S	Т	

Across

### Down

- 2. Site (adjective) of rare neoplasms that resemble ovarian sex cord tumors but without recognizable local stroma **Uterine**
- 5. Carcinoma that arises from the interfollicular or follicular epithelium **Basal**
- 9. Myofibroblastic spindle cell neoplasm of borderline malignancy (abbreviated) **IMT** (inflammatory myofibroblastic tumor)
- 11. Chronic, progressive cholestatic liver disease (abbreviated) **PBC (primary biliary cholangitis)**
- 12. "Halo cells" associated with HPV Koilocytes
- 14. Biomarker related to embryonic development, useful for germ cell tumor diagnosis (abbreviated) AFP (alpha fetoprotein)
- 16. Idiopathic chronic inflammatory disorder of colon (abbreviated) UC (ulcerative colitis)
- 17. Pediculosis Lice
- 19. Relative quantitative measurement of radiodensity used to interpret CT images (abbreviated) **HU (Hounsfield unit)**
- 20. Staging system for gynecologic cancers (abbreviated) **FIGO (International**
- Federation of Gynecology and Obstetrics)
- 24. Process of molecular separation into its distinct parts (abbreviated) GC (gas chromatography)
- 25. Polymicrobial infection of sexually active women (abbreviated) PID (pelvic inflammatory disease)
- 26. Transmembrane protein regulated by hypoxia (abbreviated) CAIX (carbonic anhydrase IX)
- 29. Type of body present within lichen planus **Civatte**
- 31. Main energy source of biological systems **ATP**

- 1. Syndrome of chronic dacryoadenitis with enlargement of salivary glands **Mikulicz**
- 2. Common infection in elderly (abbreviated)

  UTI (urinary tract infection)
- 3. Most common form of kidney cancer (abbreviated) RCC (renal cell carcinoma)
- 4. Most common site of endocrine mucin producing sweat gland carcinoma **Evelid**
- 5. Most common autoimmune blistering skin disorder (abbreviated) **BP (bullous pemphigoid)**
- 6. "Routine" stain to detect mucin (abbreviated) AB (alcian blue)
- 7. Disease that is protective against *Plasmodium falciparum* (abbreviated) **SCA** (sickle cell anemia)
- 8. Multisystemic autoimmune disease that involves skin and internal organs **Lupus** 10. Anti-EpCAM antibody also known as epithelial cell adhesion molecule, BerEp4
- 13. Joint inflamed in sacroiliitis (abbreviated) **SI (sacroiliac)**
- 15. Krebs cycle enzyme associated with kidney tumors (abbreviated) **FH (fumarate hydratase)**
- 18. Scar Cicatrix
- 21. Most common primary glomerulonephritis worldwide **IgA**
- 22. Rare and aggressive noncancerous tumor with morphology that is identical between soft tissue and bone (abbreviated) **GCT (giant cell tumor)**
- 23. Greek physician whose name is the pledge of modern physicians **Hippocrates**
- 25. Type of vitamin B12 anemia Pernicious
- 27. Treatment for relapsed acute promyelocytic leukemia (abbreviated) **ATO** (arsenic trioxide)

#### Across, cont.

- 33. Group of proteins with alpha and beta subtypes analyzed in breast cancer (abbreviated) **ER** (estrogen receptor)
- 34. From the greek words for "self" and "sight" Autopsy
- 35. Benign granuloma, often a reactive vascular proliferation of the oral mucosa **Pyogenic**
- 38. Premalignant gynecologic lesion (abbreviated) CIN (cervical intraepithelial neoplasia)
- 39. Tool often used for "shotgun" diagnosis in tumors of unknown origin (abbreviated) **IHC**
- 41. Abbreviated name for pathology department studying response to injurious agents or deprivations Tox (toxicology)
- 42. Small spot-like or pin-point hemorrhages in skin or mucous membranes **Petechiae**
- 45. Popularly known as Lou Gehrig disease (abbreviated) ALS (amyotrophic lateral sclerosis)
- 46. Factor number for thrombin **IIA**
- 47. Rare gestational trophoblastic disease

#### **PSTT** (placental site trophoblastic tumor)

- 49. Acutely altered mental status which has the core elements of inattention and fluctuating course **Delirium**
- 54. Malignant cell in Hodgkin lymphoma (abbreviated) RS (Reed-Sternberg)
- 55. Abnormal hardening of body tissue associated with cutaneous and systemic disease **Sclerosis**
- 56. Type of cell that leaves bone marrow and circulates in immature form, maturing at tissue site **Mast**

#### Down, cont.

- 30. Procedure recommended to evaluate hypertrophic cardiomyopathy (abbreviated)
- TEE (transesophageal echocardiography)
- 32. Bluish discoloration of the skin due to poorly oxygenated blood Cyanosis
- 34. Diseases with a relatively rapid onset and short duration **Acute**
- 36. Degenerative joint disease (abbreviated) OA (osteoarthritis)
- 37. Biomolecules that cannot dissolve in water **Lipids**
- 39. Also called Hunner's ulcer (abbreviated)

#### IC (interstitial cystitis)

- 40. Eponym for benign familial pemphigus HH (Hailey-Hailey disease)
- 43. Pathogenic bacteria causing dysentery-like syndrome with fever (abbreviated) **EIEC** (enteroinvasive Escherichia coli)
- 44. The most common aggressive variant of papillary thyroid carcinoma **Tall**
- 47. Partner hormone for 33-across **PR** (progesterone receptor)
- 48. Most common subtype of invasive melanoma with asymmetrical proliferation of atypical melanocytes (abbreviated) **SSM** (superficial spreading melanoma)
- 50. Endothelial infection first described by Osler in 1885 (abbreviated) IE (infective endocarditis)
- 51. Ratio of the chance for an event for the exposure group compared to the non-exposure group (abbreviated) RR (relative risk)
- 52. Recommended technique for circulatory access in cardiac arrest **IO (intraosseous** infusion)
- 53. Possible cause of ST elevation on EKG (abbreviated) MI (myocardial infarction)
